

THE ROUNDUP

BY AND FOR THE STUDENTS OF HALF HOLLOW HILLS HIGH SCHOOL WEST

Written and Designed by The Roundup Staff

We lived in quiet, ignorant bliss, escaping for a short while what Emerson referred to as the "north wind's masonry."

However, it has now become inescapable: Winter Storm Jonas is on the way!

If you have noticed the sudden briskness of the weather, you are not the only one. The weather this winter went from resembling late fall to suddenly being extremely cold with a light sprinkling of snow (and more on the way).

We have our first possible snow event this Saturday," predicts Mr. Maroney, "a classic nor'easter snow storm!

The upcoming snow may be alarming to many, especially students that are taking the SAT this Saturday and the populations that have the

snow threatening their weekend plans.

For many High School West students, primarily seniors, this may

ly. Make sure that you have enough time to stop. Do not drive too fast.

Also, see how well your car

could do in the snow. Be familiar with your brakes. Does your car have anti-lock brakes? If not, then read about the precautions for cars that do not have anti-lock brakes. If you have not recently, make sure you get your brakes checked.

Stay focused on the road.

Refrain from texting or multitasking while driving. Also, for emergencies, keep water, blankets, flashlights, and non-perishable foods in the car.

But if you can, avoid driving in the snow altogether. Stay inside or go drive a sled!

be their first time driving in these conditions. Although it may seem daunting, with precautions, seniors should be driving safely this winter season.

Drive slowly, and do not forget to accelerate and decelerate slowly.

Is Snow on the Way? What Does Mr. Maroney Say?

Friday, January 22

It looks like we have a historical snow storm for Saturday. There is still some disagreement with the models, but there is enough consensus that we get a good size snow, but not as much as many other places along the mid-Atlantic coast.

Many places are in for 2 feet plus, with high winds. On Long Island,

expect 6 -12 inches, slightly down from what I was looking for a couple of days ago. Most snow will fall later Saturday and during Saturday evening with very windy conditions.

Curl up in front of the fireplace and watch your favorite movie. Enjoy what could be one of the few snow storms of this winter season.
